DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 12-26 to a method of manufacturing a semiconductor device non-elected without traverse. Accordingly, claims 12-26 have been cancelled.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed December 29, 2003 distinguish the claimed invention from the double patenting rejection based on Nadakumar et al. (U.S. patent No. 6,452,236) in view of Arimura et al. (U.S. Patent No. 5,449,937), since the cited prior art fails to disclose, teach or suggest, the claimed high resistivity regions which increase the current gain of a parasitic lateral npn transistor and improve ESD robustness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
